

How to Get a List of Devices with a Specific Patch Installed

Follow these instructions to get a list of devices with a specific patch installed.

1. Navigate to the **Software** page in the Automox console and locate the package you wish to query against:

The screenshot shows the Automox Software page. On the left, there is a filter panel with a search bar and various filters. The main table lists software packages with columns for Software Name, Version, OS, OS Version, Severity, Days Exposed, Ignored, Impacted, Updated, and Actions. The 'Updated' column for the first row is circled in red.

Software Name	Version	OS	OS Version	Severity	Days Exposed	Ignored	Impacted	Updated	Actions
Security Update for Adobe Flash Player	1	Windows	10 Enterprise (6.3.15063)	Critical	1440 Days	No	0	2	Actions
2017-06 Cumulative Update for Windows 10 Version 1507 for x64-based Systems (KB4022727)	200	Windows	10 Enterprise (6.3.10240)	Critical	1440 Days	No	0	1	Actions
2017-06 Security Update for Adobe Flash Player for Windows 10 Version 1507 for x64-based Systems (KB4022730)	200	Windows	10 Enterprise (6.3.10240)	Critical	1440 Days	No	0	1	Actions
MSXML 6.0 RTM Security Update (925673)	103	Windows	Server 2016 Datacenter (6.3.14393)	Critical	1323 Days	No	0	1	Actions
Atualizaç#o de seguran#a do MSXML 6.0 RTM (925673)	103	Windows	10 Enterprise (6.3.10240)	Critical	1172 Days	No	0	1	Actions
MSXML 6.0 RTM Security Update (925673)	103	Windows	8.1 Pro (6.3.9600)	Critical	1172 Days	No	0	1	Actions
MSXML 6.0 RTM Security Update (925673)	103	Windows	10 Enterprise (6.3.15063)	Critical	1172 Days	No	0	2	Actions
2019-02 Servicing Stack Update for Windows Server 2016 for x64-based Systems (KB4485447)	201	Windows	Server 2016 Datacenter (6.3.14393)	Critical	876 Days	No	0	1	Actions
2019-02 Cumulative Update for Windows Server 2016 for x64-based Systems (KB4487026)	200	Windows	Server 2016 Datacenter (6.3.14393)	Critical	876 Days	No	0	1	Actions

- If you are unable to find the package you are looking for, try using the filter panel and search bar to better narrow down the result set.
- You can also clear the **Automox Supported** checkbox to include packages that Automox has detected but does not support patching for.
- For details about using the search functionality, see [Filtering and Searching on the Software Page](#).

2. Once you have located your target package, click on the number in the **Updated** column. This link will redirect you back to the **Devices** page and query against your list of devices using the selected package ID.
